WASHINGTON LETTER

From our Regular Correspondent.)

Washington, D.C., June, 1893.

HUMAN LIFE IS CHEAP.

Railroad collisions that could easily be avoided at a reasonable cost, holocausts that ought never to have been possible, dead babes gathered in the alleys and sewers, the constant tribute of blood enacted by intemperance that paints the saloon a ghastly red; these and a host of other facts attest the wasteful, criminal cheapness of human life. The general government shares this extravagance. For twenty five years at least it has herded a large part of its clerks at the capital in unhealthy, ill ventilated, badly sewered, tottering and dangerous rookeries Every one here knows it. Official investigations have been made. The newspapers have denounced. Expert architects and engineers have given opinions. Committees have reported. Cabinet and bureau officers have recommended. Representatives and senators have denounced building after building as unsafe and disgraceful. And yet the Government is to-day occupying these condemned death traps, most of them hired at an extravagant rental and several just ready to tumble upon their unfortunate inmates as has just happened in the accursed theatre where Lincoln was shot. This old building was known to be unsafe and denounced upon the floors of Congress years ago when used as a surgical museum. A new building was erected and most of the living occupants, together with the old bones, preserved limbs, frightful wounds and pickled horrors were removed to it. But the old Ford's Theatre was soon filled again with additional clerks and accumulated records and at the date of the late crash that killed twenty two or more and badly wounded several times that number was occupied by about 500 employees, many of whom were compelled to work by the light of the 50 gas jets required to illuminate its dark ill smelling interior every day.

THE PRINTING OFFICE

Is an unsafe structure in which 2500 men, women and children work, and has been propped and patched and watched and denounced by Congress. Congress has been feebly negotiating for a site for a suitable building, but no site has been secured. It is said that Congress runs against real estate deals. But just how Uncle Sam is to get land for his use without a real estate deal no one explains.

THE SEATON BUILDING

Has been another favorite of a false economy that occasionally leaves the bung hole open. The pension office occupied this death trap a while, then the post office. It had to be propped and braced and "set up nights with," everybody fearing that it would come down in a heap. Its weak, rough, irregular floors, narrow crooked halls, and small, badly worn stairways were most unfit. Fortunately a new Pension Office has been completed and a suitable Post Office building is under way.

THE WINDER BUILDING

Is another old anti-war ark, antiquated in style, defective in arrangement, ventilation and sewerage, to which the Government sticks as persistently as do the rats. There would be a palliation for the use of these buildings if there was a necessity, or possibility if they were economical, which they are not. The high rents paid would more than cover the interest upon the cost of structures that would be safe, healthy and suitable.

CONGRESS HAD PROVIDED

A few fine buildings since the war that are worthy of the nation, and suitable for national use and will no doubt erect more. The national business is large and growing, and large expenditures are necessary, Nothing is saved by paying high rents for unsuitable buildings.

CAPITAL.

The Uxbridge Piano & Organ Co. are shipping their Instruments in large quantities to Manitoba, N. W. Territories, British Columbia, South Africa, China, South America and Europe. They have no wholesale agent in Winnipeg but ship to any point in Manitoba or the N. W. direct to private parties, or to local agents where they have them, giving customers same advantage as if they lived in Winnipeg. Every instrument warranted five years.

Prepare for Summer Diseases—If you have Cramps, if you have Colic, if you have Diorrhea, or if you have any summer complaint,—and you are more than likely to suffer in that way before the soft crab season is over,—buy a bottle of Perry Davis' Pain Killer, and secure instantaneous relief after one or two doses. In treating severe attacks of Cholera, bathe the bowels with the Pain Killer. Twenty drops of Mr. Davis' wonderful medicine will cure a child of the worst case of Colic. A bottle of the Pain Killer can be bought at any reputable drug store. Price 25c. Big New Bottle.

1891, "The Cream of the Havana Crop." "La Cadena" and "La Flora" brands of cigars are undoubtedly superior in quality and considerably lower in price than any brand imported. Prejudiced smokers will not admit this to be the case. The connoisseur knows it. S. Davis & Sons Montreal.

PRINCE ALBERT, JULY 7. 1893.

HUDSON'S BAY RAILWAY.

Hugh Sutherland of Hudson Bay Railway fame is still confidant and declares that he will succeed in building the Hudson Bay Railroad. When asked if the scheme had failed, Mr. Sutherland said:—"Certainly not because until a public issue is made there cannot be a failure. All preliminary negotiations leading up to a public issue have been satisfactorily completed, but in the opinion of those best able to gauge the market we must bide our time. Those familiar with financing new railway securities well understand that after the business is taken up by responsible people, they reserve the right to themselves to say when the scheme should be launched, and that is the position in which the Hudson's Bay Railway now stands. When I say that no new railway enterprise, either colonial or American, has been floated in England for the past two years unless wholly guaranteed by government or some rich, well established railway company as the C. P. R. or some of the best of the American roads, you can understand the difficulty any person has to get through ahead of hundreds of equally good schemes from all parts of the world. Many excellent enterprises have been waiting to be launched on the London market for a longer period than the Hudson Bay railway. The failure of the Manitoba & Northwest, in the first instance, has had a very depressing effects so far as Canadian enterprises are concerned, and it has been a hard blow to the Hudson Bay scheme. Until the effect of the default of this company blows over, I felt it useless to remain in Europe, and am consequently home for a holiday. I expect to return to Europe is about two months time or probably sooner, but that will entirely depend upon how soon the present crisis disappears."

SUSPENDED PAYMENT.

The Commercial Bank of Canada suspended on Saturday last. Reports detrimental to the sound financial standing of the bank led to the withdrawal of deposits which was found too heavy a drain upon the institutions and consequently led to the closing of the doors.

Although the bank has been forced to suspend, it is believed by the board of directors that it is perfectly solvent; that the assets are sufficient to meet all liabilities, so that all depositors and note holders will be paid in full. Under the banking act of 1891, all Canadian banks are obliged to deposit with the Dominion government at Ottawa a certain percentage of the bills they have in circulation and this fund is held by the Dominion Government to protect the noteholders of any bank should it fail, so that all Commercial Bank bills are worth their face value. Any bank will take the bills as they only have to be transmitted to Ottawa to receive gold in return. The authorized capital is $2,000,000; the paid up capital $550,000; and the money in circulation amounts to about $300,000. The Commercial Bank was a local enterprise and its failure is a bad blow to the province at the present time owing to the great stringency in financial matters. Among the shareholders is Mrs. M. S. Calder of Prince Albert, who has shares to the extent of $3,200. The president of the bank is of the opinion that the suspension is not permanent, but that it will again be reorganized on a sound footing and start again.

DISBANDED.

The Liberal Conservative Association of Grenfell passed a vote of want of confidence in Sir John Thompson, Premier of Canada, because the Federal Government has erected a Court House at Wolseley instead of at Grenfell. The Association claiming a membership of 350, has in consequence, disbanded. It is a great pity that the Dominion Government couldn't build a court house, a registry office, an asylum, a reformatory and a penitentiary in every hamlet in the country.

NOT APPOINTED YET.

A successor to Lieutenant-Governor Royal has not yet been appointed The report of the Montreal Herald that Mr. Mackintosh, M.P., had been appointed Lieutenant-Governor of the North West is not correct. The governorship of the Territories will not be decided until the return of Sir John Thompson foom Europe.

INSANITY PLEA.

McBride, who is now lying in Regina jail, charged with tampering with letters while in the government employ, has not yet been brought to trial. He is working the insanity plea apparently with success. The Regina *Standard* is somewhat hard on him when it represents him as the little dark man from Calgary, who took such an active part in the Sabbath School Convention held at Regina last summer. If we mistake not there was another active worker there, which the *Standard* lauded and to whom McBride might apply for advice. Christianity is often used a cloak hypocrisy.

CANADA LEADS.

At the World's Fair Canada has had a brilliant triumph in her cheese exhibit. Out of 135 prizes given for excellence in the production of cheese Canada has carried off no fewer than 126. This is a glorious triumph and must be gratifying not only to every cheese maker but to every true Canadian. There were 667 exhibits, in all, of which 162 were from Canada. The 162 Canadian cheese took 126 prizes while the 505 other cheeses just took 9 prizes. The Canadian cheese that received the prizes were distributed as follows: Ontario, 69; Quebec, 52; Nova Scotia, 2; Prince Edward Island 2; New Brunswick, 1.

The encouraging statement of Canada's foreign trade presented this week must make sorry reading for the pessimists. The imports for the 11 months of the fiscal year 1892-3 amount to $109,462,587, a gain of $10,161,682 over the same period in the previous year. The exports for the 11 months amount to $101,815,370, an increase of $5,208,959 over last year. This great expansion in exports is most gratifying. It marks the operations of recent months of the period because May's exports amount to $8,277,768, an increase of $1,107,150 over May, 1892. This fine statement bears out exactly the encouraging addresses of our leading bankers.

The records of Canadian commerce illustrate most completely how trade rises and falls in certain articles or products and how easily it sometimes changes its trend from one country to another. At one time in our history, the Provinces bought their cheese from the States, in 1867 Ontario and Quebec exported a little—$180,164 to England and $5,151 worth to the Republic. Last year the Dominion sent to Great Britain $11,593,690 worth and to the States $39,558 worth. In passing, it may be said that our trade in cattle further illustrates this point. The year of Confederation saw an export of horned cattle to the United States from Upper and Lower Canada valued at $1,199,799, while none were sent to the Mother Country. In 1892 the Dominion sent $7,481,613 to Great Britain and $21,327 to the States. And it is extremely gratifying to find how high a place Canadian cheese is now taking both as to quality and appearance. At the Chicago Exhibition it has swept all other competitors out of the field. Having won 126 medals out of a total number of 135 which were given. The American product does not seem to have been "in it."

Dominion Day.

Saturday last was the twenty-sixth anniversary of the birth of our fair Dominion, and as such was observed as a general holiday here. Early in the morning all the available bunting of the town was floating in the breeze, giving the town quite a gala appearance. Soon the people from the country began to arrive by cart, waggon, buckboard, buggy and horseback and about noon there must have been over five hundred of our rural friends in town to assist in celebrating our natal day. Unfortunately the weather was anything but inviting, and no doubt prevented many from coming in, who would otherwise have helped to enlarge the crowds. The rain, which had been so threatening, commenced falling about ten o'clock, and continued falling at intervals during the day, notwithstanding which at the hour for commencing the sports there was upwards of one thousand spectators congregated at the driving park, where they were to be held, who bravely stood their ground until the programme had been gone through with.

The first event of the day was a cricket match between two junior teams of the town. The boys were not favored with a very large number of spectators, but those who did call around were surprised at the excellent form displayed by the majority of the youthful knights of the willow. The rain fell at intervals during the match which made the fielding a slippery business. The teams were captained by Anton Way for the west end and J. D. McLeod for the east end. The captains of the different teams of course placed their men on the field to suit themselves, one following the rules laid down in the book of instruction, the other using common sense and placing their men where they were wanted, and consequently won the game. We hope the seniors of the town club will take hold of the boys and see that they are provided with a proper outfit, and that order is kept amongst them both at their practices and at their matches, complaints having been made of rough talk on the field. The scores were as follows, showing a majority of 27 for the juveniles.

For the bicycle race there were but two entries, G. W. Baker and Const. Stronnick—two miles. This was a nice race, with Baker leading till the last lap, when he fell, claiming to have been fouled, which was not allowed, Stronnick therefore winning the race.

HORSE RACES.

The horse races this year were not up to the average, several good events on the programme not having sufficient entries to make a race. For this the committee are certainly not to blame as they could not compel people to make entries. The first event, trotting or pacing, received no entries and was passed over. For the second event, a pony race, strange to say there was but one entry, and it had to be passed by.

For the half mile, race open, best two in three heats, there was but three entries, first place was taken in good style by Willie Pritchard in two straight heats, the second money being taken by Sandy Thomas, of Duck Lake.

The fourth event, one mile race, open, best two in three heats which was looked forward to as the event of the day, and for which good prizes had been offered, ended very unsatisfactorily to the majority of those who witnessed it. There were three entries, but the race was known to be between Donaldson's and Dubray's horses, with the latter considerably the favorite. The first heat was a very good one, the horses running close together, though it was quite evident Dubray's horse was not being pushed. In the second heat, after passing the wire the second time, both horses slipped on the wet course, Donaldson's horse quickly recovering himself and keeping on the track, but the driver of Dubray's horse had evidently lost his head, and after cantering a few yards was pulled off the course on to the grass and consequently out of the race, as it was distinctly understood the horse that was distanced was out of the race and that the horse distancing the field took the entire purse. While regretting the termination of this race, as we would have preferred seeing it finished on the merits of the horses we think the judges were justified in giving the race to Donaldson. There being no entrees for the slow race, the pony race (owners up) or the consolation race the programme was brought to an abrupt termination and the crowd rapidly dispersed.

A CORRECTION.

Prince Albert, 3rd July, 1893.

To the Editor of The Times:

As some parties have been misled by statements of interested persons made in connection with claims by relations of Mr. Maclise and Capt. Huot, (deceased), against the Federal Life Assurance Co for whom I act as district manager in the Territories. I think it my duty to give the public a true statement of the facts as follows.

Mr. Maclise insured in the above named company for $1,000 and having passed his note for the first premium thereon in the month of September last, which was due and payable on 15th December last, and refused payment by Mr. Maclise The policy lapsed about a month or so before he died.

The day following his death some of his friends offered payment of said note but the Company's agent did not then accept payment.

Now as regards Capt. Huot's policy I have only to say that his premium note for $131 odd fell due on 15th March. On the 13th of the same month—the day he died at Duck Lake—a draft was issued here for $71 odd and sent to me by Capt. Norman to Calgary on 1st of April only and the remainder of the first premium has not yet been paid to the company or to myself. There was no reason why this premium should not have been paid in course and before I had returned the original note to the head of my company There was a train from here to Calgary on 11th March—4 days before the note matured—and it could have been remitted and it would have reached us in good time. The amount of premium could have been placed at my credit at Imperial Bank, Calgary, by telegram. Capt. Huot had I understand a large sum at his credit there in that Bank early in March last so there was no excuse for letting his note go past due.

I do not think any business man can find fault with the insurance company for having declined to pay those claims under existing circumstances.

When premiums are paid and as admitted in policies the Federal Life pay all claims with much promptness.

Not very long ago Assistant Commissioner Herchmer died at Calgary and he was insured for $10,000 for 2 or 3 years only in the Federal Life; and in 3 weeks the whole sum was paid to his widower or representatives. The widow Morton, of Regina, whose husband died in 1891 got $3000 from the Federal Life, though the premium had been overdue for 6 months—they paid this at my request as she had a large family and was left without a cent.

So long as a note passed for any premium is current at time the policy becomes a claim the amount of policy less the amount of current note is paid without delay to the representative of the Insured by the Federal Life Assurance Co. and that without trouble or delay.

Yours faithfully,

J. CoEAGH.

P.S.—I would not deem it necessary even under the circumstances mentioned in the foregoing letter were it not for the fact that an agent of some other company wrote a letter in your paper referring indirectly to that claim of Maclise (Dec.) not having been paid. J. C.

How many persons know that Ripans Tabules, now so largely advertised and used, are simply the favorite prescription of their family doctor prepared in a scientific manner and a form convenient for handling, conveyance, preservation and use? In the great hospitals of the metropolitan cities, where the wealthy find better care than in their own luxurious homes, the ingredients of Ripans Tabules are administered to thousands of rich and poor alike with beneficial effect. They are the main dependance of the most eminent physicians in cases of derangement of the digestive organs, such as dyspepsia, constipation, billiousness and other ills connected with the stomach, liver and bowels. For some years one of the principal hospitals in New York City has used a formula, differing slightly from the common one, that has been found of unusual efficacy. Through the commendations of physicians its mission of healing has been so widely and rapidly extending that it finally seemed desirable to prepare the prescriptions in a convenient form, so as to make it available to the whole public at a moderate price, and to announce the fact through the recognized medium for securing publicity—advertisements in the columns of the newspapers of the land. This has been done, and now the time is not far distant when every family of intelligence will be as certain to possess a supply of Ripans Tabules as a clock or a cooking stove. They are already to be found on sale almost everywhere, and any druggist or dealer will supply them. A box, containing six vials, is sold for 75 cents, and a gross package, containing four boxes, for $2. They will be sent by mail, post paid, to any address, on receipt of price, by the Ripans Chemical Company, No. 10 Spruce St., New York.

The Rev. E. K. Matheson, of Battleford and formerly of St. Catherine's parish, arrived down Saturday last, and expects to be stationed here for some time. Mr. Matheson's many old friends will be pleased to have him amongst them again.

A gang of carpenters, and laborers arrived in last week for the purpose of working on the new station at the east end. They have been rushing the work through, and already the building has been sheeted and almost shingled.

REDUCED TO A SCIENCE.

The treatment of disease is now reduced to a science. A scientific product of medical skill for the cure of all blood diseases from a common pimple to the worst sore, which has held popular esteem for years and increases steadily in favor is Burdock Blood Bitters. It proves its worth.

The medical health officer at Toronto discharged from the isolation hospital the eight Poles who arrived from Hamburg a few days ago on the steamer Hungarian. Men and baggage were a set thoroughly disinfected and given a clean bill of health.

A naval disaster so terrible as that which took place recently will send a thrill of sympathy and sorrow throughout the civilized world. The loss of life has been seldom exceeded in the history of the British Navy, never perhaps has it come so sad heavily upon the unfortunate victims of accident, carelessness, or incapacity. To Great Britain the loss of many skilled and trained officers and hundreds of brave sailors is one which cannot be counted as may the millions of dollars which the Victoria as a battle ship represents. And deeply will the death of Vice-Admiral Sir George Tryon be regretted. No man ever made more friends than he did when commanding upon the Australian Station, and to few men has rapid promotion to the command of the great Mediterranean Squadron come with a more general recognition of fitness and ability.
